## OUR GUARANTEE

We guarantee the vitality and purity of our seeds to the full amount of the purchase price. There are many natural causes why good seeds fail to grow—planting too early, while the ground is still too cold and wet; planting too deep; lack of moisture. Insects and birds eat the tender sprouts as soon as they appear. Should results not be satisfactory, we would like to help you ascertain the cause and correct it. We are so sure of our seeds that we send a duplicate package **from the same lot**, for replanting, on request, where first results were not right, provided the empty envelope is enclosed with the letter.

Because success depends greatly on good cultural practice and climatic conditions, we shall in no case be liable for more than the price paid for the seeds or their replacement. If they are not accepted on these terms they must be returned immediately.

# Twenty-fourth Annual Catalog

Since 1920 (its first year) the Puget Sound Seed Company has made every effort to provide pure seeds, honestly represented, with prompt service.

We believe that seed grown in the Puget Sound district has a higher vitality and quality than seed grown elsewhere. When not available, we procure the highest grade of hardy northern and western seeds grown for us by the finest seed firms in the country, in selected varieties best suited for Northwest gardens and climate.

If you have used Puget Sound Seed Company's seeds before, you know how satisfactory they are. We hope you will recommend them to others. If you are using our seeds for the first time, we hope you will note how choice the vegetables and how fine the flowers. Your recommendation to others will be greatly appreciated.

The planting directions given on the packages are necessarily brief. More complete information will be supplied at your request.

## NURSERY PLANT DEPARTMENT

Since it may not be so convenient for you to go shopping for your garden plants this season, we have had Mr. Cecil Solly select, where possible in the State of Washington, trees and plants of exceptional quality and vitality, grown for us by the best nurserymen.

NOTE that all orders will be shipped from La Conner or direct from the grower from our selected plants. All prices include proper packing for safe delivery and mailing charges. Be sure to include the 3% sales tax—without which your order might be delayed.

**WE DO URGE YOU TO BUY EARLY**

# FRUIT TREES

## Special Notice

The worst shortage of Fruit Trees, Nut Trees, Berry Plants and in truth almost every type of nursery stock, including Roses, has made it impossible for us to promise delivery of any items listed on pages 30, 31 and 32.

We have a limited supply of all things listed, except Peach Trees, which are entirely sold out. All orders sent in are accepted only on the understanding that we will deliver everything as nearly as ordered, as we are able.

We beg you to be patient with us and we will fill all orders received as nearly complete as possible. Balance of money sent will be refunded as soon as we are sure that the items ordered will not be available.

We hope that when this war is over we will be able to accept orders with full assurance that we can fill them completely with stock that is exactly as described in both size and quality.

It is our desire to send out only first class stock. In some cases this has not been possible, but in every case we have sent the very best that we can supply.

## SEVEN GORGEOUS PEONIES

There is no flower that will give such lasting satisfaction with less care or pest bother than peonies. The giant blossoms, many of them fragrant, are best in June. **AVALANCHE 8.7** (Crousse). A choice creamy white, coming into bloom late in the season. The flower is large and compact, with a collar of creamy white petals surrounding a center of delicately tinted lilac-white petals occasionally edged carmine. A choice cut flower and also a fine show flower. **85c each.**

**ELLA CHRISTENSEN 9.0** (Brand). An irresistibly appealing new pink of the large size, with narrow serrated petals. One of the finest pinks yet. Lighter than Walter Faxon. A splendid flower both in the garden and as a cut flower. **\$1.50 each.**

**FELIX CROUSSE 8.4** (Crousse). A deep rose-red showing no stamens. Consists of a central bomb of incurved petals surrounded by broad, prominent guard petals. A good all-purpose late red. **75c each.**

**KELWAY'S GLORIOUS 9.8** (Kelway). A fine mid-season lacy white that fully deserves its high rating. The flowers are large, rose type, with long lacinated petals. Plant is medium tall, upright, with strong stems that hold the lacy flowers erect. A really fine white. **\$1.35 each.**

**MME. CHARLES MALLERIN.** (Pat. No. 409.) (Mallerin) An outstanding sensation, with flowers that stand erect on extra strong stems. One of the earliest roses to bloom. The color of the open flower is orange, overlaid with flame. The large buds are a deep glowing orange. **\$1.50 each.**

Comes into bloom early mid-season. The plant has excellent foliage and strong, stiff stems. The flower is a bright crimson and is a showroom winner. **\$1.20 each.**

**MONS. JULES ELIE 9.3** (Crousse) An immense self-colored flesh-pink, shading a trifle deeper toward the base of petals. Great prominent broad guard petals enclose an immense ball of incurved petals of the same color, all covered with an intense silvery sheen. It looks more like a huge chrysanthemum than a peony. The plant is medium tall with strong stems. An early bloomer with pleasing fragrance. **75c each.**

**WALTER FAXON 9.3** (Richardson). The most vivid of all pinks, the only "real pink", as someone has said. A remarkable flower at its best in the showroom. The flowers are of medium size, attractive in form, and mildly fragrant. In the showroom it tops them all. **\$1.00 each.**

### COLLECTION . . . \$6.00 Postpaid

## Camellia Flowered Tuberos Rooted Begonias

See color cut on inside front cover.

### CULTURE

Begonias are without doubt one of the most beautiful and satisfactory of all house or semi-tender outdoor bulbs. The lovely flowers are borne in profusion during the summer months, when planted outdoors in a moist shady spot, or in window or porch boxes on the north side of the house. They do not do well in direct sunlight when exposed to it over one-half of the day.

Tubers start best in open trays where the bulbs are dampened slightly once in a while until the sprout appears, then plant in a flat or pot in a mixture of peat and sand, leaf mold and sand, or peat moss alone, all of which give excellent results. Plant tubers  $\frac{1}{2}$  inch below surface and keep moist, not wet. Do not transplant until there is 3 to 4 inches of growth, and if planted outside only when the weather is warm, generally after May 15th, for best results.

We offer these gorgeous flowers in five lovely colors: YELLOW, PINK, FLAME-ORANGE, CARDINAL RED and APRICOT.

Each 25c, 3 for 65c. One of each for \$1.00.

N. B. Our bulbs are large size and produced for us by one of the best growers in the west, and if properly cared for will give wonderful results. We do not recommend shipment until about February 1st.

### SPECIAL COLLECTION

Special collections of mixed sorts (our selection) containing **15 named dahlias** from our list.

Value from 25c up, a total retail value of over \$5.00, **for only \$3.00.**

We do not recommend the planting of Dahlias before the middle of April any year and best results are had with a May planting. Early cold or wet weather causes a large loss by rotting.
